

TALK ABOUT IT

Alexandra Schmal

People of this socalled adjusted society they're creepers.
They say 'yes', smiling and thinking 'What an idiot, this dreamer!'
Never loosing his temper, but inside there's so much to be let out.

Talk about it say it loud, there's no use in beeing proud,
realise your way is not the only way!
Talk about it, say it straight say'n tomorrow is too late,
take your chance for what you wanna say!

Wise man said that everyone, may he be big or small are all the same.
They're just looking for their own profits, they're all greedy for gain.
Would you live in destitution, if you'd get for a change an honest
appreciation.

Talk about it say it loud, ...

When you're in trouble, a misunderstanding, and your life seems
pretty odd. Take all you're courage and get on out there, 'cause there
is something you forgot.

Talk about it say it loud, ...
